

Navodila za kataloge

Postopek po korakih:

1. Naredimo katalog v pdf formatu in ga nekam shranimo (pdf naj ne bo več kot 100MB)

2. Povežemo se na server **HARTIS-WWW**

3. Na namizju kliknemo na ikono **PDFFill PDF Editor** (na spodnji sliki označen s črnim)

4. V PDFFill-u odpremo katalog v pdf formatu iz točke 1 tako, da gremo pod **File -> Open new PDF Project later editing**

5. Za dodati povezavo pritisnemo na gumb **Add a Link** (označen s črnim na spodnji sliki)

The screenshot shows a PDF document titled "FAVORIT.pdf" in the PDFill PDF Editor. The document contains a table of products with columns: Crtna šifra, Šifra artikla, Šifra-dobavitelja, Naziv artikla, VP cena, Stran kataloga, and Slike. The table has three rows. The top row contains: 8006779010952, 10226, 2060005015, MAPA A4 L FAVORIT VARIUS SOR. MOTIVI 1/10 2060005015, 4,7840, 14,2, and a small image of four maps. The second row contains: 8006779011034, 10225, 2060003015, MAPA A4 L FAVORIT I TECH BARVN 1/10 2060003015, 4,4980, 15,2, and a small image of four maps. The third row contains: 8006779013267, 10222, 20600010A10, MAPA A4 L FAVORIT PPL ZELENA 1/10 20600010A10, 4,4980, 18,1, and a small image of four maps. The toolbar at the top has various icons, and the status bar at the bottom shows coordinates (X,Y) = 2,501 x -0,012" and page information.

6. Ko pritisnemo na gumb označimo področje kjer se nahaja artikel (na spodnji sliki kvadarat s rdečimi obrobami).

Nato se nam pojavi okno kjer za Select Action pustimo **Open a Web Link** in za URL Link pa vpišemo

<http://b2b.hartis.si/item/10225> (napis s modrim je vedno enak, rdeča številka pa se spreminja, saj zaznamuje šifro artikla).

The screenshot shows the "Link, Submit, JavaScript and more..." dialog box in the PDFill PDF Editor. The dialog has fields for "Select Action" (set to "Open a Web Link"), "Select Trigger" (set to "Mouse Up"), and "URL Link" (containing the value "http://b2b.hartis.si/item/10225"). Below the dialog, the PDF document shows the same table of products. The first row of the table is highlighted with a dashed red rectangle, indicating the area selected for linking. The rest of the table and the toolbar are visible.

7. Po potrditvi z gumbom **Ok** se nam pokaže še eno okno (slika spodaj, tukaj lahko nastavljamo razne lastnosti, katere jih ne potrebujemo), ker spet pritisnemo gumb **Ok**.

The screenshot shows the 'Multiple Line Properties' dialog box from PDFill PDF Editor. The dialog box includes fields for String, Font Encode (Western), Font Name (Times New Roman), Font Style (Regular), Font Embed (Auto), Font Color (Change Color), Font Size (10), Stroke Type (Fill), Stroke Color (Change Color), Stroke Size (2% of Font Size), Rotate (0), Underline, Strikethrough, FirstLine Indent (0"), Line Spacing (Lines 1.00), Horizontal Align (Left), Vertical Align (Top), Position (Left: 0.267344", Right: 7.82426", Top: 1.82382", Bottom: 2.45956"), Margin (Left: 0", Right: 0", Top: 0", Bottom: 0"), Border Points (0 pts), Border Color (Change Color), Border Style (Solid), Shape (Rectangle), and Action (Edit Link, Submit, JavaScript and more...). Buttons at the bottom include OK, Cancel, and Help.

Črna šifra	Šifra artikla	Šifra-dobavitelja	Naziv artikla	VP cena	Stran kataloga	Slike
8006779010952	10226	2060005015	MAPA A4 L FAVORIT VARIUS SOR- MOTV 1/10 2060005015	4,7840	14,2	
8006779011034	10225	2060003015	MAPA A4 L FAVORIT I TECH BARVN 1/10 2060003015	4,4980	15,2	
8006779013267	10222	20600010A10	MAPA A4 L FAVORIT PPL ZELENA 1/10 20600010A10	4,4980	18,1	

8. Kadar označimo vse article moramo pdf shraniti, to pa naredimo tako da pritisnemo na gumb **PDF** (na sliki označen s črnim)

The screenshot shows the main interface of PDFill PDF Editor. The toolbar has a 'PDF' button highlighted with a red circle. The catalog page below shows the same table of products as the previous screenshot. The table columns are: Črna šifra, Šifra artikla, Šifra-dobavitelja, Naziv artikla, VP cena, Stran kataloga, and Slike. The table rows correspond to the ones in the previous screenshot.

9. Preden zapremo PDFFill shranimo še projekt, katerega bomo lahko kasneje odprli in spremenjali povezave. Za shranit projekt gremo pod **File -> Save Project for later editing**

10. Ko shranimo projekt zapremo **PDFFill** in odpremo program **FlippingBook Publisher Professional** (na sliki označen)

11. V FlippingBook-u odpremo naš PDF tako, da pritisnemo na **Import -> PDF File or Pictures** (označeno na sliki)

12. Izberemo naš pdf in pritisnemo na gumb **Open**

13. Pri tem oknu pritisnemo gumb **Start** in bo naš pdf pretvoril v SWF format (FLASH)

14. Ko nam program pretvori pdf ga objavimo s klikom na **Publish -> To HTML...**

15. Pod **Publication Path** moramo najprej vpisati pot do katalogov **W:\katalogi** (na sliki podčrtano s črnim) in nato sledi še ime kataloga. Pri imenu (na sliki označeno z rdečim) moramo paziti da **ne vpisujemo šumnike ali presledke** (namesto presledke uporabljamo počrtaje _ ali minuse -). Ko vpišemo pravilno pot pritisnemo na gumb **Start**

16. Ko nam program objavi katalog je ta dostopen na povezavi: <http://hartis.si/katalogi/FAVORIT/index.html>. Pisava z rdečim je za vsak katalog različna (predstavlja ime kataloga), pisava s plavo barvo pa je vedno enaka.

17. Pri WordPressu moramo narediti Portfolio kot prej samo da namesto povezave **./wp-content/plugins/page-flip-image-gallery/popup.php?book_id=** (na spodnji sliki označeno s črnim) vpišemo povezavo iz točke 16
